

Streamline Efficiency with Customized Staff Messaging

This wireless transmitter notifies staff with simple notifications or custom messages

Easy-to-Use Staff Messaging Solution

The Freedom transmitter is a simple, affordable component of an LRS paging system. Businesses can page or notify workers when they are needed or delegate tasks with the touch of a button. Easily send customizable text messages and help streamline work efficiency without disrupting work flow. Stay connected.

Increased Staff Responsiveness

Communication improves with instructions and messages being sent directly to the pager. Staff can respond right away with little to no delay in communication.

Boost Staff Productivity

Give staff the tools they need to be more efficient and productive. The convenience of instant and customizable messaging streamlines work flow and boosts productivity.

Better Work Environment

Create a more enjoyable work environment with staff paging. Instant communication provides better directions and can be useful for in-house and out-house staff workers.

HOW IT WORKS

- 1 Assign**
Provide a wearable LRS pager to staff or workers so they can be reached regardless of where they are in the vicinity.
- 2 Notify**
Send customizable messages to delegate tasks, provide instructions, or request immediate attention with the touch of a button.
- 3 Respond**
Upon receiving the text or page, staff can respond immediately and take care of their task.

TAKE THE NEXT STEP.
