Grow your business with Table Tracker

Fast Casual restaurants understand the importance of delivering food quickly. Table Tracker helps restaurants deliver a better guest experience and operate more efficiently.

Faster Food Delivery
Provide the experience customers demand. Faster food delivery means warmer food and worry-free guests.

Enhanced Productivity
Give your employees the tools they need to succeed. Be smarter about scheduling and use your team's time more efficiently

Analytics & Reporting
Measure delivery times to identify pain points and improve your operation and performance.

MIA'S
FAMILY FRIENDLY
ALWAYS MADE TO ORDER

"It's the best investment I've made this year."

Johnny Carrabba | Owner & Founder
The Original Carrabba's & Mia's

Johnny Carrabba built his success in the restaurant business by focusing on two things: delicious food & great service. Unfortunately, food runners at Mia's were spending too much time looking for guests and shouting names, both of which disrupted the customer experience. That's when Mia's turned to Table Tracker. Today, food is delivered faster, the atmosphere is noticeably quieter and staff can manage their time more efficiently. Above all else, Table Tracker has Mia's reach its most important goal — providing a great experience for guests.

Here's how it works

1. Order
A Tracker is given to customers when they order.

2. Locate
The tracker reads tags on the customer's table and broadcasts its location.

3. Deliver
Food runners reference Order View to identify a guest's location and deliver food.

4. Analyze
Managers can use Table Tracker app or LRS Connect to view performance reports.

Service & Support

Our team of experts is here to make sure you get the most out of your system. From installation to operational support — we've got your back.
Reporting & Analytics

Our advanced reporting tool LRS Connect allows restaurants to view historical and comparative performance across locations. Customers also have access to our API for integration with existing systems.

Extended Warranty

Our extended warranty covers all Table Tracker hardware for up to three years after purchase date. Covered equipment includes Trackers, Tracker Docks, Gateways, Repeaters, and iPad Accessories.

Customer Support

Table Tracker customers will receive great phone support with priority response time. Our support representatives will work with you until an issue is resolved.

"Every fast-casual restaurant should have Table Tracker."

Michael Johnson | Regional Manager | Jason's Deli

At Jason's Deli, Table Tracker hasn't just made delivering food easier, its made it faster. The implementation has produced immediate improvement, reducing ticket times by a full minute. Instead of searching for guests, food runners know exactly where customers are sitting so they can deliver food immediately. Table Tracker also helps Jason's Deli collect important information about its food delivery times. Using Table Tracker's reporting tools, Jason's Deli store managers and corporate employees can identify trends and pinpoint opportunities for improvement.

Table Tracker Pro

Be invisible. We'll install tags under your tables, out of sight.

Trackers. Broadcast location of guest.

Gateway. Wirelessly connects Trackers to an iPad

Mobile App. Displays status and location of guests

Under the table tags. Used under tables

Systems starting from just £3,995 depending on number of tables

Join the hundreds of restaurants already using Table Tracker to enhance their guest experience. 01782 537000 | info@table-tracker.co.uk
