

# There's Lots of Exciting Things to do in a Gentlemen's Club.

## Finding a Waitress Isn't One of Them.

### Sell more drinks and food faster with these LRS push-for-service systems.

No matter how many waitresses you have working on a given night, you'll still miss out on profitable drink and food orders. Make sure you get every order with the Table Genie™ and Butler XP™ push-for-service paging systems from LRS.

When a customer is ready for a drink, food, cigar, table dance or any other service, they simply press a button. Instantly, these units send a silent message to a server letting them know which table needs service.

- Raises check averages and improves service response times by providing "on-demand" service
- Increases table turns and customer service
- Monitors service times to improve staff efficiency

With LRS push-for-service paging systems, your guests can enjoy your club's bottom lines while you keep increasing yours.

To learn more about Table Genie, look on back of this sheet, then call us at 01782 537000 . You can also visit us at [www.pager.co.uk](http://www.pager.co.uk)

## Push-For-Service Systems

### Table Genie™

This tiny three-button transmitter is perfect for loud, dark clubs. When a button is pressed, it sends a message to a monitor in the server area letting them know which table needs service. It works in three or single-button mode, and each button can be programmed for specific messages (order, check, manager, etc.).

- Easy to Install and use
- Programmable buttons
- Monitors service response times
- Can be fastened to the table
- Water and tamper resistant
- Operates on one (1) AA battery
- Battery life - 6 to 8 months depending on usage
- Visual alert on PC when battery is low
- Dimensions: 2.75" x 7" x 1.375"
- Manager and staff paging directly from the server touchscreen

| Seat | Req     | Time | Seat | Req     | Time |
|------|---------|------|------|---------|------|
| 3    | Service | :36  | 98   | Manager | :13  |
| 8    | Check   | :12  | 123  | Service | :31  |
| 16   | Service | :18  | 156  | Service | :18  |
| 35   | Service | :09  | 180  | Check   | :28  |
| 89   | Service | :22  | 201  | Service | :40  |

Table Genie Software

### Butler XP™

This tough unit is perfect for your VIP or other private rooms. With its 1/4 mile range, it lets your guests page servers from almost anywhere. They can order drinks or ask for assistance by pressing the button and sending a message to a server wearing an LRS alphanumeric pager. It can also be used by employees to contact other staff members.

- Transmits up to 1/4 mile (more than any other paging product available)
- 100% Waterproof and tamper proof
- Multiple mounting options: Velcro and heavy-duty elastic bands
- Each transmitter sends one custom message
- Pages directly to pager (no hardwiring required)
- Pages one person or entire groups of people (up to 99 groups)
- Program how often you want it to re-page from 10 seconds to every 5 minutes (up to 10 minutes maximum)
- Up to 9,999 Butler XPs can be used at one location
- Holds up to 14 different system IDs
- Can re-program all LRS pagers on-site
- Labels promoting your club can be applied on the top and bottom of the unit to help you earn even more revenue
- Uses two (2) AA alkaline batteries
- Batteries last 8 to 12 months
- Alerts manager when power is low
- Dimensions: 2.75" x 7" x 1.375"
- Optional magnet (with lanyard) available that cancels re-pages
- USB interface
