Increase sales and serve customers better with LRS Guest Paging and Survey Systems

LRS has been the leading innovator of guest and staff paging and management systems for almost 14 years. We invented the popular coaster pager (shown at left) and now offer more pagers than anyone else. We have over 35 products designed to help you streamline operations, improve service and increase sales every day. We provide the highest quality, most durable products on the market, plus we offer exclusive products and services no other company can.

Guest Paging

Reduce Walk-Aways and Serve Food Faster. In full-service restaurants our on-site pagers let guests know when their table is ready. In fast casual restaurants they let them know when their food is ready to pick up. Either way, they help you serve your guests faster so you increase table turns and check averages, and reduce walk-aways.

- **Silent Paging** – Eliminates disruptive overhead paging
- **Five Pager Models** – More guest pagers than any other company
- **Cell phone paging**
- **Anti-theft & Auto-locate** – Out-of-range alert minimizes page
- **Nickel Metal Hydride Batteries** – Last years longer with no “memory” problems
- **Multiple Paging Modes** – All guest pagers can flash, beep, vibrate, or glow
- **Restaurant ID** – Unique signal will not inter with neighboring restaurants using paging systems

It's the only solution available that offers a true measurement of your guest's satisfaction.

- **Professional Survey Design** – Custom Surveys accurately measure key areas of your operation
- **Real-Time Alert Paging** – Only system that pages manager when guest leaves negative answer
- **Daily Performance Summaries** – Reports are emailed to your management team each morning
