CUSTOMER PAGERS FOR ALL SECTORS

CS7 Series Coaster – The Digital Pager

LRS started the coaster pager revolution in 1993. We invented the first coaster pager.

This unique device has special charging methods only found on the Coaster Call. It's the most robust customer or guest pager in the world today

- Notify people faster when you need to.
- Minimize crowds in waiting areas.
- Eliminate overhead paging.
- Free guests from being tied to the waiting area.
- Control Queues once and for all..

Notify customers immediately.

Reduce your customer wait times.

Manage your waitlist effectively.

SECTORS

The re-designed digital coaster pager is better than ever...with the slick, clean design the customer coaster is the perfect solution for many businesses here in the UK.

- Restaurants
- Logistics
- Doctors Offices
- Opticians
- Café
- Bowling Allys
- Casino's
- Golf Clubs
- Food Trucks
- Anywhere that customers are waiting to be called back.

THE CS7 BENEFITS & FEATURES

These products are used throughout the United Kingdom in some of the UK's most well-known brands. These companies buy from LRS because they know how incredible our products and services are.

- Extra-wide shock bumper
 - NiMH Battery
 - Coaster call compatible stack charging
 - Branding Labels (optional)
 - Digital Number
 - Two-way paging
 - Compact size
 - Available in Red, Green, Blue, White and Multi-coloured
-
- Reduce wait times
 - Return on your investment
 - Improve customer service
 - Waitlist management (LRS Connect)
 - Improve staff productivity
 - Reduce customer frustration

WHAT'S IN THE BOX

In the box, you will receive the coaster charging base, along with your brand-new CS7, Transmitter, and power cables.

We offer two different types of transmitters that can work with this system, the TX-7471 which has a larger range and allows your coaster pagers to connect to our waitlist management application. Our second transmitter is the T9560MT which is a low-cost solution that has quality features. Speak to our team to find out what transmitter would work best for your business.

The system will be already set up for you and your business needs, all you need to do is plug it in and start using the system.
